**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim **53** is rejected under 35 U.S.C. 102(b) as being anticipated by either of **Frankl (US 4,592,275)** or **Fontein (US 2,916,142)**. Control of the slurry flowrate will inherently control the volume of air that flows through the sloped screen.

***Response to Amendment***

The Declaration of **Richard Dias** under 37CFR 1.132 was not considered because it was unsigned.

***Response to Arguments***

Applicant's arguments with respect to claim **54** have been considered but are moot in view of the new ground(s) of rejection.

***Drawings***

The drawings were received on **9/22/03**. These drawings are **approved**.
